2017 Gold Krugerrand 6-Coin Prestige Proof Set

- **50th Anniversary Gold Krugerrand Proofs**: First struck in 1967, the Gold Krugerrand was the world’s first modern gold bullion coin—making it the first to reach a 50th anniversary.

- **Nearly Two Full Ounces of 22k Gold**: Each coin is struck in 91.7% (22 karat) gold. Those purchasing this set are getting nearly two full ounces of 22k gold!

- **Two All-New Fractional Weights**: This set contains the one-ounce, half-ounce, quarter-ounce and tenth-ounce Gold Krugerrand Proofs, as well as the first-ever twentieth-ounce and fiftieth-ounce weights.

- **Special Anniversary Mint Mark**: The Krugerrand’s design has remained unchanged for 50 years—an incredible achievement—so the addition of the 50th anniversary mint mark on the coin’s reverse is a big deal!

- **Proof Condition**: Every set has been specially minted for collectors. Each coin is struck multiple times using specially prepared and polished dies for incredible detail and mirrored fields not found on circulating coinage.

- **NGC Certified and Graded**: Every set features proofs certified and match-graded by Numismatic Guaranty Corporation (NGC). Each set also comes with an officially numbered certificate of authenticity.

- **Extremely Limited Editions**: Only 250 of these 2017 Gold Krugerrand Prestige Sets are available. With two all-new, never-before-seen weights included, collectors will want to secure theirs immediately.
